Small animals...
always become bigger ones prey.
In this harsh world, small animals must form a group to survive.
However, a smaller animal cannot even belong to the group of its own kind.
This is the sewer.
The darkest place amongst the scarcest area.
And the sewer rat is smaller than any other sewer rat
Hungry...
Is there anything I can eat...?

Won't I die if this continues?

Die?
Me...?
Bet, you're too small
Are you really a cute cat?
Wow? now you sing down the songs with you?
Ah, well, I guess you can play the role of a bait.
Bait?
I'm frustrated enough for being small, but are you telling me to die after losing your memory?
I don't need a group!!
I decided to become a hit wonder
I'll use you guys as baits
I'll go...
Don't ignore me because I'm small!!!!
Even though I may look like this.
The survival method I've chose for myself.. to survive
I'm a nasty sewer rat...

Caseell has hearing loss on one ear and a habit of stuttering while shaking his upper lip. Because of this, he landed to pronounce his name as "Do-Do-Dodgson". In other words, the model for the Dodo bird is Lewis Caseell himself, and the duck that appears with the Dodo bird is modelled after his friend, the Reverend Duckworth, and Alice's sisters appear as the Lory and the Eaglet.
